MD. MUSHFIQUR RASHID MARMO

Product Manager, Tech | AI & Machine Learning | Full-Stack Development

mushfiqur.tech@gmail.com | +8801720097317 | Bashundhara RA, Dhaka, Bangladesh
LinkedIn: mushfiqur-rashid-5a8583238 | GitHub: MushfiqurRashid | Portfolio: mushfiqurrashid.vercel.app

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with experience in AI program management, technology product management, full-stack development, digital product delivery, and AI/ML projects. Translate business requirements into technology solutions, coordinate stakeholders, and build and deploy web platforms. Hands-on with Python, SQL, machine learning, RAG, React, Next.js, Node.js, PostgreSQL, Vercel, and VPS operations.

PROFESSIONAL EXPERIENCE

Product Manager, Tech | **EMPIRE CAPITAL BD** Jul 2026 - Present

- Lead product and technology implementation for digital platforms, translating business requirements into product specifications, development tasks, and production-ready solutions.
- **Empire Auctions:** Led development of the live philately e-commerce platform, empireauctions.online.
- Delivered the Empire Capital corporate website (empirecapitalbd.com) through requirements analysis, full-stack implementation, deployment, domain configuration, and ongoing technical operations.
- Led full-stack implementation and production deployment of Bangla Blend (banglablend.store), a Bangladesh-focused e-commerce platform for regional spice products, gifts, recipes, and food-heritage content.
- Manage VPS hosting, Vercel deployments, domain and DNS configuration, maintenance, and technical operations across digital products.
- Integrated Google Tag Manager and Meta Pixel into Bangla Blend for analytics, conversion tracking, and digital marketing measurement.

Associate Program Manager | **GRAMAI** Jun 2026 - Jul 2026

- Supported AI-focused programs, corporate AI training, stakeholder engagement, meetings, and program execution.
- Coordinated technology and AI initiatives across stakeholders, translating program objectives into actionable activities and deliverables.

Co-Founder | **FAIRFARM BD** Jan 2025 - Jun 2026

- Co-founded FairFarm BD (fairfarm.com.bd), an agritech startup focused on digital solutions and technology-enabled services for farmers.
- Worked alongside undergraduate studies in 2025 and transitioned to full-time work after graduating in December 2025.
- Led development and improvement of websites, applications, and the digital product ecosystem.
- Contributed across technology, product development, business development, startup operations, and agricultural technology initiatives.
- Participated in stakeholder, partner, and collaborator meetings; supported product execution, hosting, deployment, and production infrastructure.

SELECTED PROJECTS

Empire Auctions | **LIVE** | **empireauctions.online**

- Live e-commerce platform for selling philately products, developed under Empire Capital BD.

Empire Capital Corporate Website | **empirecapitalbd.com**

Bangla Blend | **banglablend.store**

FairFarm BD | **fairfarm.com.bd**

Physics-Guided GSM Prediction with Explainable AI | 2025 | **GitHub**

- Built an end-to-end ML pipeline covering data cleaning, SQL extraction, and feature engineering; benchmarked 22 regression models and applied SHAP and LIME for explainability.

Agriculture RAG Chatbot - FairFarm BD | **GitHub**

- Developed an AI-powered agricultural question-answering system using Retrieval-Augmented Generation, FastAPI, FAISS, and large language models.

Intelligent Crop Recommendation System | 2025 | **GitHub**

- Developed an ensemble machine learning classifier using structured agricultural data to provide data-driven crop recommendations and decision support.

TECHNICAL SKILLS

Product & Program Management: Product Management, Program Management, Project Management, Requirements Gathering, Stakeholder Management, Corporate AI Training, Cross-functional Coordination

Full-Stack Development: React, Next.js, Node.js, TypeScript, JavaScript, REST APIs

AI & Machine Learning: Python, Machine Learning, NLP, Transformers, RAG, Scikit-learn, PyTorch, TensorFlow, Explainable AI

Data & Databases: SQL, PostgreSQL, MySQL, MongoDB, Pandas, NumPy, Data Modeling, ETL

Cloud & Deployment: VPS Management, Hostinger, Vercel, Domain & DNS Management, Production Deployment, Web Hosting, Git, GitHub

Analytics & Marketing Technology: Google Tag Manager, Meta Pixel, Conversion Tracking, Web Analytics

Languages: Bangla (Native), English (Proficient)

LEADERSHIP & RESEARCH

Team Leader - LLM Research Project | Jan 2024 - Dec 2025 | North South University, Dhaka

- Led a 5-member team evaluating large language models for cultural representation; designed 200+ structured prompt templates and coordinated research tasks and milestones.

Team Leader - NASA International Space Apps Challenge | Oct 2023 | Global 2nd Runner-Up | Team of 5

- Directed end-to-end project development, data analysis, visualization, and documentation under a 48-hour deadline.

EDUCATION

B.Sc. in Computer Science and Engineering | North South University, Dhaka | CGPA: 3.03 / 4.00 | 2025

HSC | Birshrestha Munshi Abdur Rouf Public College | GPA: 4.25 / 5.00 | 2019

SSC | Jamalpur Zilla School | GPA: 5.00 / 5.00 | 2017

CERTIFICATIONS

Machine Learning A-Z: AI, Python & R - Udemy

NASA International Space Apps Challenge - Global 2nd Runner-Up, 2023

UAP Hackathon - Qualifier, 2023

PUBLICATION

Evaluating Inclusivity & Diversity of Large Text-to-Image Models: A Case Study on Bangladeshi Cultural Representation - Work in Progress, NSU 2025.
